### FUJITSU Storage ETERNUS CD10000

FUJITSU Storage ETERNUS CD10000 lets you manage extreme data growth yourself – and with ease. This hyperscale, software-defined system is designed for all environments with ambitious online data demands. Integrating open source Ceph software into a storage system delivered with end-to-end maintenance from Fujitsu enables IT organizations to fully benefit from open standards – without implementation and operational risks. ETERNUS CD10000 delivers compelling new economics for organizations managing enormous “big storage,” for example, cloud and telco service providers, financial, media and business analytics organizations, plus any other environment where online data volumes are exploding. Intel promotes the deployment of Ceph in the open source community with optimized silicon, flash and network technologies. In close collaboration with Fujitsu and Red Hat, Intel supports the integration of these technologies in an efficient turnkey solution for enterprise environments. Discover the benefits delivered by ETERNUS CD10000.

shaping tomorrow with you

The Fujitsu logo is located at the bottom right of the page. It consists of the word 'FUJITSU' in a bold, red, sans-serif font, with a red infinity symbol above the 'i'.
